

Blue Abyss

During this term the children in Woodpecker class will be busy! In Geography, children will be learning about the different oceans in the world, including how humans and the climate are impacting on them. During the unit, children will also be discovering ways of protecting and helping the world's oceans. Additionally, the children will be exploring the Great Barrier Reef. In DT, the children will be learning various skills for sewing and learning how we can use embellishments to improve products. The outcome of learning being children making their own pincushions. Science will be focused on living things and their habitats, finding out how we can group and classify living things. But also understanding how environments can change and pose danger on living things. PE days will be on a Tuesday and Thursday afternoons covering hockey, as well as dance.

Thank you.

Please see separate information for this term's creative homework which will be posted on ClassDojo. Remember - dojo points and certificates are on offer for any completed pieces sent in. Your child can do as many pieces as they wish!
