

English:

Reading: Weeds

We will:

- Draw inferences and justify inferences with evidence.
- Identify main ideas and summarise them.

Writing: Escape from Pompeii

We will:

- Use prepositional phrases to help describe the setting.
- Demarcate speech with inverted commas.
- Use apostrophes to show possession.

Computing: Touch Typing

We will:

- Improve and practice typing.
- Practice typing with the right hand.
- Practice typing with the left hand.

DT:

We will:

- investigate, analyse and evaluate books and, where available, other products which have a range of lever and linkage mechanisms.
- Use annotated sketches and prototypes to model ideas.
- Create my own lever and linkage product.

PE: Orienteering and Dance

We will:

- Develop problem solving skills.
- Work as a team and improve tactics and strategies.
- Learn to use canon, unison, formation and levels in their dances.
- Perform to others and provide feedback using key terminology

Maths:

Our mathematical learning will focus on

- Time: we learn about Roman numerals, learn about hours, days, months and years and estimate times.
- Angles and properties of shapes: learn about turns, learn what a right angle is and understand and draw parallel and perpendicular lines.

Statistics: present information in different ways and use pictograms, bar charts and tables.

Year 3

Summer: Term 6

Geography: Climate and Biomes

We will:

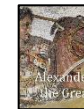

- Learn about the continent of Europe
- Understand what climate zones are
- Learn about climate, oceans and biomes
- Learn about the Mediterranean climate
- Learn about the temperate climate of Britain and the Rhine

History: Alexander the Great

We will:

- Learn about Greece and Macedon and King Philip
- Learn about Alexander – from boy to king
- Learn about Alexander's battles
- Learn about Alexander conquering Persia
- Find out about the wonderful library of Alexandria

RE: The Kings, the Temple and Living as a Jew

We will:

- Learn about the scouts, the serpent and the wilderness
- Learn about the law, the wall, the judges and a king
- Learn about two kings: Saul and David
- Find out about King Solomon's Temple in Jerusalem
- Learn how Jews worship without a temple

Science: Plants

We will:

- Identify what plants require to grow and live.
- Identify the main parts of a plant.
- Understand the functions of the different parts of plants.

Music: Fly with Stars

We will:

- Begin to learn the chord structure and changes of verse.
- Play crotchet/quaver patterns using notes A and C to follow the chord changes.

Spanish: Describing Things and People

We will:

- Describe things and people by learning how to use common adjectives.
- Learn verb structures.

PSHE: Changing me:

We will:

- Understand that the body changes.
- Identify what a baby needs to grow.
- Understand how our bodies change from inside and on the outside.
- Recognise stereotypical ideas.

To help your child with their learning, you can:

- Encourage your child to read **EVERY DAY**: Reading is KEY to learning – encourage them to reach their reading target
- Encourage your child to access TTRS regularly and take part in battles – this will MASSIVELY support their learning in maths
- Ensure that your child has PE kit in school every day
