

Our Curriculum

Our curriculum is underpinned by our core values: Ask Aspire Achieve.

Intent

At Morley Meadow Primary School, we aim to inspire our children to have the desire to always want to build on their learning. They will see developing their knowledge as a personal journey, full of rich and memorable opportunities that give enjoyment, fulfilment, confidence and promotes risk-taking.

The *National Curriculum* is used to drive and develop the knowledge content of our curriculum. We expect all learning to have a context and meaning to our children and, where possible, we maximise cross curricular links. Lessons build on previous knowledge enabling them to apply their understanding through questioning, thinking, reasoning, vocabulary development and communication.

Through planning our curriculum, we have considered the importance of our local area, its people, location and changes over time. We have considered how we can support our children in understanding the fundamentals of core British Values.

Our curriculum will enable every child to believe they can **ask**, **aspire** and **achieve**, providing the right levels of support and challenge. We will encourage our children to collaborate and share their knowledge with each other, their families and the wider community.

Implementation

Our intent is implemented through the requirements of the National Curriculum and our own school values. These are supported by our chosen programs of study for each subject area.
