

Morley Meadow Primary and Nursery

'Preparing every learner to thrive in a changing world'

Ask, Aspire, Achieve

Ask...

We encourage our children to be inquisitive, investigative and curious learners who feel empowered to have a voice and ask questions. They feel safe, supported and have the confidence to ask for help in their own learning.

Aspire...

Every child is recognised for their uniqueness and potential. They aspire by being confident to take risks in learning and building high expectations of themselves. Together, we develop a love of learning so every child believes they can.

Achieve...

Children achieve their own success by gaining knowledge to enable independence and collaboration. We celebrate and respect differences between one another and build positive relationships, fostering a sense of belonging in both the school community and the wider world.

Our Relationship Rules

We expect everyone to be:

Ready

Respectful

Safe

We learn through...

... to become articulate, confident, reflective, mastery learners.
