

Road Trip USA

During this term the children in Woodpecker class will be busy! In Geography, they will be learning all about the USA. We will launch this area of learning with locating where the US is in the world. During the term, children will explore the weather, time zones, the Iroquois and will also develop their mapping skills. In DT, the children will be discovering what Americans eat and will be following a recipe to try and recreate a typical American dish. Science will be focused on electricity and how it works, through exciting experiments and research. PE days will be on Tuesday and Thursday afternoons covering basketball, as well as health and fitness. Miss Lyon will be teaching Wild Tribe on a Wednesday.

Thank you.

Please see separate information for this term's creative homework which will be posted on ClassDojo. Remember - dojo points and certificates are on offer for any completed pieces sent in. Your child can do as many pieces as they wish!

Writing	'I don't believe it, Archie' - Fiction text
Computing	Purple Mash - coding
DT	Food
Geography	Where is USA's place in the world?
Maths	Place Value - 4 Digit Numbers
